

Faculty Corpus Fund

The faculty members of Sri Pratap College Srinagar have created a “Corpus Fund” to help out those students hailing from families with modest economic background but are keen on pursuing higher education.

Since not all the meritorious students belong to affluent section as many of them hail from economically weaker sections of the society. For want of financial support they would be forced to give up higher studies. It is such of those candidates whom the generous faculty members have come forward to help.

The faculty decided to contribute into a corpus fund by way of monthly contribution. However, the monthly contribution is voluntary basis. The corpus fund has an account in the J&K Bank and monthly contribution is deducted from the faculty members from their salary accounts. Presently the monthly contribution of the faculty is about Rs 11000/-

During the year 2017-18 an amount of Rs 1.25 lakhs have been disbursed among 17 needy students

Energy conservation:

The college takes many steps to minimize energy consumption. These include:-

Replacement of energy consuming tube light & bulb with energy saving CFL. tubes & LED bulbs.

Energy consumption in the hostel is being monitored by a committee which can successfully bring down power consumption by enlightening the inmates about the indispensability of energy saving.

The college fosters an energy saving attitude among students and staff through various• programmes, discussions and campaigns.

A solar panel has been installed in the Department of Electronics for mobile charging as an alternate source of energy.
